

# Our K-12 Digital Citizenship Curriculum

---

Kids and teens today are using the immense power of digital media to explore, connect, create, and learn in ways never before imagined. With this power, young people have extraordinary opportunities, and yet they face potential pitfalls, too. Meanwhile, schools are dealing with the associated ramifications — like cyberbullying, digital cheating, and safety and security concerns. These issues underscore the need for students to learn — and for teachers to teach — digital literacy and citizenship skills.

Common Sense Education's **FREE Digital Citizenship Curriculum** empowers students to think critically, behave safely, and participate responsibly in our digital world. These 21st-century skills are essential for students to harness the full potential of technology for learning. Taught by classroom teachers, librarians, technology specialists, health educators, and guidance counselors around the world, our K-12 curriculum:

- Introduces reliable, research-based information to students about digital media and their impact
- Offers a comprehensive yet balanced approach in addressing safety and security concerns, including ethics and behavior issues, as well as digital literacy skills
- Includes research-based lessons based on the work of Howard Gardner and the GoodPlay Project at the Harvard Graduate School of Education
- Provides student-centered, media-rich lesson materials that emphasize skill building, critical thinking, ethical discussion, media creation, and decision making to students of all ages
- Addresses the whole community by providing materials to educate parents and families about digital citizenship
- Satisfies criteria for CIPA E-rate compliance
- Aligns to the Common Core State Standards, the International Society for Technology in Education's National Education Technology Standards (ISTE's NET•S), and the American Association of School Librarians (AASL) Standards
- Includes rich professional development resources such as tutorials, videos, and webinars

There are 80 lessons in the full K-12 curriculum, with supporting materials such as student handouts, assessments, educational videos, family tip sheets, and professional development resources. We suggest starting with our Scope & Sequence to determine which approach is right for your students.

Our Scope & Sequence consists of three units for grade bands K-2, 3-5, and 6-8 and four units for Grades 9-12. Each unit is comprised of five lessons, which spiral to address a cross-curricular approach. The units build on each other by reinforcing developmentally appropriate topics. You can use the units either sequentially by grade or at any grade level within this band.

Our curriculum is made available to educators and schools FREE thanks to the generous support of our funders. Browse our educator site to find a plethora of curricular materials. Our education program brings students, families, and educators together to create world-class digital citizens for the 21st-century.

# Cross-Curricular Framework

## Privacy & Security

Students learn strategies for managing their online information and keeping it secure from online risks such as identity thieves and phishing. They learn how to create strong passwords, how to avoid scams and schemes, and how to analyze privacy policies.

## Digital Footprint & Reputation

Students learn to protect their own privacy and respect others' privacy. Our digital world is permanent, and with each post, students are building a digital footprint. By encouraging students to self-reflect before they self-reveal, they will consider how what they share online can impact themselves and others.

## Self-Image & Identity

These lessons are designed to help students explore their own digital lives, focusing on their online versus their offline identity. Students learn the benefits and risks of presenting themselves through different personas and the effects on their sense of self, their reputation, and their relationships.

## Creative Credit & Copyright

Living in a “copy/paste” culture, students need to reflect on their responsibilities and rights as creators in the online spaces where they consume, create, and share information. From addressing plagiarism to piracy, students learn about copyright and fair use.

## Relationships & Communication

Students reflect on how they can use intra-personal and interpersonal skills to build and strengthen positive online communication and communities. They delve into the concept of digital citizenship and digital ethics, and they reflect on their online interactions.

## Information Literacy

Information literacy includes the ability to identify, find, evaluate, and use information effectively. From effective search strategies to evaluation techniques, students learn how to evaluate the quality, credibility, and validity of websites, and give proper credit.

## Cyberbullying & Digital Drama

Students learn what to do if they are involved in a cyberbullying situation. They explore the roles people play and how individual actions — both negative and positive — can impact their friends and broader communities. Students are encouraged to take the active role of upstander and build positive, supportive online communities.

## Internet Safety

Students explore how the Internet offers an amazing way to collaborate with others worldwide, while staying safe through employing strategies such as distinguishing between inappropriate contact and positive connections. These foundational skills are just the beginning!

# GRADES 6 - 8

## Scope & Sequence **Digital Citizenship Curriculum**

Our Scope & Sequence consists of three units for grade bands K-2, 3-5, and 6-8 and four units for grades 9-12. Each unit is composed of five lessons, which spiral to address a cross-curricular approach. The units build on each other by reinforcing developmentally appropriate topics. You can use the units either sequentially by grade or at any grade level within a grade band. *Our cross-curricular approach covers:*

|  |   |   |   |
|--|---|---|---|
|  Internet Safety                |  Privacy & Security    |  Relationships & Communication |  Cyberbullying & Digital Drama |
|  Digital Footprint & Reputation |  Self-image & Identity |  Information Literacy          |  Creative Credit & Copyright   |

- > **GET TRAINED:** Use our *Digital Citizenship Tutorial* and professional development resources to learn best practices for teaching digital citizenship to your students.
- > **ONBOARD STUDENTS:** Introduce students to *Digital Compass*, our award-winning suite of games that help onboard students to the foundational skills of digital citizenship and internet safety.

> **TEACH LESSONS: UNIT 1**

Completed

- 1 - **DIGITAL LIFE 101:** What is the place of digital media in our lives? 
- 2 - **STRATEGIC SEARCHING:** What steps can help you find what you're looking for when you search online? 
- 3 - **SCAMS AND SCHEMES:** What is identity theft, and how can protect yourself from it? 
- 4 - **CYBERBULLYING: BE UPSTANDING:** How do you judge the intentions and impact of people's words and actions online?  
- 5 - **A CREATOR'S RIGHTS:** What rights do you have as a creator?  

> **GIVE ASSESMENT\***

> **TEACH LESSONS: UNIT 2**

- 1 - **MY MEDIA:** What are your personal media habits, and how much time do you spend with different forms of media? 
- 2 - **A CREATOR'S RESPONSIBILITIES:** What responsibilities do you have to respect others' creative work?  
- 3 - **SAFE ONLINE TALK:** How should you handle inappropriate online talk?  
- 4 - **WHICH ME SHOULD I BE?:** What are the outcomes of presenting yourself in different ways online?  
- 5 - **GENDER STEREOTYPES ONLINE:** What are gender stereotypes, and can they shape our experiences online?  

> **GIVE ASSESMENT\***

> **TEACH LESSONS: UNIT 3**

- 1 - **TRILLION-DOLLAR FOOTPRINT:** What is a digital footprint, and what does yours convey?  
- 2 - **IDENTIFYING HIGH-QUALITY SITES:** When can you trust what you find on the Internet? 
- 3 - **THE REALITY OF DIGITAL DRAMA:** Does the way we think about digital drama have anything to do with gender?   
- 4 - **CYBERBULLYING: CROSSING THE LINE:** When does inappropriate online behavior cross the line into cyberbullying, and what can you do about it?  
- 5 - **REWORK, REUSE, REMIX:** What rights do you have as a creator?  

- > **EXTEND LEARNING:** Challenge teens to take a real-world look at digital citizenship through student-directed, media-rich activities in *Digital Bytes*.
- > **\*GIVE ASSESSMENT:** Assess your students' learning of lesson objectives and gauge their understanding and attitudes through *Interactive Unit-Level Assessments*.
- > **ENGAGE FAMILIES:** Invite parents into the conversation with our *Connecting Families* program and resources.
