INCOME TAX WITHHOLDING FOR RETIREES

Each retiree is responsible to have the required Federal and State income taxes withheld based upon their overall income and projected tax liability. However, it is not necessary to have withholdings from each individual income source. Instead, retirees normally need to have one Federal and one State withholding account (depending upon your state of legal residence, and applicable state tax laws). Individuals who do not have enough income tax withheld may wish to file estimated taxes or they may be subject to penalties if their withholding is not adequate.

Some states exclude pension income from taxable wages while other states exclude pension income once you have attained a certain age, such as age 65. Other states treat pension income as fully taxable. Therefore, it is critical to familiarize yourself with the tax laws and withholding requirements of your state of residence or consult a qualified tax or financial advisor for additional questions or information.

Each year, you file Federal and State income tax returns to determine your actual tax liability. Then, based upon the amount withheld during the tax year, you will either owe additional taxes or receive a tax refund. As your income grows over time, you may need to increase your tax withholdings to insure that adequate taxes have been withheld. Several forms are used to establish or update the amount of federal and state taxes that are withheld from your pension. The forms you will need depend upon your state of residence, and whether you receive your core retirement benefit from the State Teachers' Retirement System or the MCPS Employee's Retirement/Pension System through MCPS' agent, Aetna, Inc.

The following four examples illustrate the common situations based upon plan membership and state of residence. Each example will explain the necessary forms and where to send them to establish or adjust your withholding amount.

[SEE PAGE TWO FOR EXAMPLES →]
