

Office of the Superintendent of Schools
MONTGOMERY COUNTY PUBLIC SCHOOLS
Rockville, Maryland

July 25, 2005

MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools

Subject: Maryland State Department of Education Reporting of Highly Qualified Teachers

The purpose of this memorandum is to provide you with information regarding the number and percent of core academic classes being taught by teachers designated as highly qualified in the Montgomery County Public Schools (MCPS). Please note that these data are captured and reported by the Maryland State Department of Education (MSDE) for the previous year. Therefore, the data reflect staff designations as of December 1, 2004. MSDE will again capture data to report on December 1, 2005.

A class is considered as being taught by a teacher designated highly qualified if the teacher is certified and has an academic major or has passed an appropriate PRAXIS test, completed High Objective Uniform State Standard of Evaluation (HOUSSE), or holds an advanced professional certificate in the core academic subject he/she is teaching. Core academic subjects are English, English for Speakers of Other Languages, language arts/reading, all foreign languages, math, all sciences, social studies, the arts, and elementary and early childhood education.

Of the 31,105 core academic subject classes being taught by MCPS teachers as of December 1, 2004, 80.3 percent (24,976) were being taught by teachers who are designated highly qualified and 19.7 percent (6,129) were being taught by teachers who are not yet designated highly qualified. The percent of core academic subject classes being taught by highly qualified teachers has increased by 5.8 percentage points since December 1, 2003, when 74.5 percent (23,197) of 31,119 core academic subject classes were being taught by teachers who were designated as highly qualified.

Countywide, 100 percent of classes in the core academic areas of geography and economics were taught by highly qualified teachers, followed by classes in the arts (92.1 percent), history (84.5 percent), elementary education (84.3 percent), English (78.0 percent), foreign language (78.4 percent), civics/government (77.0 percent), science (73.4 percent), language arts/reading (71.0 percent), and mathematics (67.7 percent).

The Office of Human Resources continues to review the designations of all teachers who are teaching in the core academic subjects. In collaboration with the Office of Strategic Technologies and Accountability, the Office of Human Resources works with the MSDE to support accurate reporting of data and works in collaboration with the Office of School Performance to support school administrators in assigning teachers to core academic subject classes for which they are designated as highly qualified. The law outlines a list of minimum requirements, both in content knowledge and teaching skills, to meet the "highly qualified" status. The law requires teachers to have a bachelor's degree; full state certification not on an emergency, temporary, or provisional basis; and to demonstrate content knowledge in the subjects they teach.

Under NCLB, states decide what is necessary for certification and for determining subject-matter competency. As a result, the specific criteria that must be satisfied to achieve the highly qualified designation vary from state to state. In Virginia, designation for highly qualified requires that a teacher of core academic subjects have full state teaching licensure, including licensure earned through alternative routes, and is teaching only in the area(s) of endorsement. Therefore, teachers designated highly qualified in non-Maryland jurisdictions may not be designated highly qualified by Maryland standards. The MSDE continues to develop and refine the requirements for highly qualified teachers.

The attached data provide the number and percent, by school and subject, of core academic area classes taught by teachers who have been designated highly qualified and classes taught by teachers who have not been designated highly qualified as of December 1, 2004.

I will continue to keep you informed of the status of highly qualified teachers in core academic subjects in our schools.
