MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools

Subject: Report on *Honors or Advanced Placement Course Enrollment 2005–2006*

Enrollment in at least one honors or Advanced Placement course increased in 2005–2006 for all students and for all groups of students, except for those with limited English proficiency, compared with the previous school year. As indicated in the attached report, *Honors or Advanced Placement Course Enrollment 2005–2006*, the rate of enrollment has continued to increase over the last four years (58 percent in 2000–2001) to 69.7 percent of last year's comprehensive high school students. For the first time, half of all African American students (50.7 percent) were enrolled in at least one honors or Advanced Placement course, an increase from 46.8 percent the previous year. Nearly half (49.2 percent) of all Hispanic students were similarly enrolled, compared with 45.3 percent the year before. Overall, more than 30,400 students were enrolled in such courses among the district's 24 high schools, the largest enrollment ever.

The attached report also provides, for the first time, data in relation to newly established targets for student participation in at least one honors or Advanced Placement course through 2010. I will continue to keep you informed.

2005–2006 Enrollment in at Least One Honors or Advanced Placement Course

Continued progress was made during the 2005–2006 school year in increasing the enrollment of students in at least one honors or Advanced Placement (AP) course in high school. The Montgomery County Public Schools (MCPS) seeks to increase enrollment in and performance of all students in gifted, honors, Advanced Placement (AP), and other advanced programs as part of ongoing efforts to provide an effective instructional program—one of four major goals identified in *Our Call to Action: Pursuit of Excellence*.

This report measures the progress all comprehensive high schools have made toward increasing the enrollment of students in at least one honors or AP course. Additionally, this report includes performance results on recently established targets that raise expectations and standards for student achievement and reinforce a commitment to closing the gap in student performance by race and ethnicity, as well as other student groups. The targets extend through 2010 and reflect the requirements of national, state, and local accountability mandates for student achievement.

MCPS has undertaken efforts designed to prepare and encourage more students to stretch themselves academically and to take the most challenging courses. Various systemwide and individual school initiatives have opened the enrollment and encouraged more diverse student participation in honors and AP courses. Initiatives include creating a positive school climate that communicates high expectations for all students, motivating students to participate in challenging coursework, and removing barriers to the recruitment and selection of students for enrollment in honors and AP courses.

Honors or AP Course Enrollment

Compared with the prior year, 2005–2006 enrollment in at least one honors or AP course increased for all students and for all groups of students, except for those with limited English proficiency (LEP). (See Table 1.) The greatest increase was seen among African American and Hispanic students, whose enrollment in at least one honors or AP course increased by nearly 4 percentage points. The percentage of White students enrolled in at least one honors or AP course increased by nearly 3 percentage points, whereas a slightly more than 2 percentage point increase was seen among students receiving Free and Reduced-price Meals System (FARMS) and special education services.

During 2005–2006, the percentage of all students and all groups of students enrolled in at least one honors or AP course was the highest since the baseline year of 2000–2001. (See Table 2.) Over the five year period, the enrollment of Hispanic, African American, and students receiving FARMS services increased by more than 15 percentage points; the enrollment of White, LEP, and Asian American students rose by more than 11 percentage points; and the enrollment of special education students in at least one honors or AP course increased by more than 7 percentage points.

Advanced Level Enrollment

Advanced Level (i.e., Advanced Placement, International Baccalaureate, Magnet, and other advanced level courses) course enrollment has been steadily increasing since the baseline year of 2000–2001, with 43.5 percent of all students being enrolled in at least one AP course during 2005–2006. (See Table 3.) Over the five year period, Advanced Level course enrollment for White and Asian American students increased by more than 15 percentage points; enrollment for African American, Hispanic, and FARMS students increased by approximately 9 percentage points; and enrollment for LEP and special education students increased by more than 6, and nearly 3 percentage points, respectively.

Strategic Plan Improvement Targets

During 2005–2006, MCPS established targets for honors or AP course enrollment that reflect rigorous expectations for both the percentage of students enrolled in at least one honors or AP course and the percentage of schools meeting the expected rate of enrollment. The targets for honors or AP course enrollment are dual fold: the student performance target designates the percentage of each student group that successfully meets or exceeds the expected percentage of enrollment in at least one honors or AP course, while the school-level target designates the percentage of schools having all students and all groups of students at or above the expected enrollment rate.

During 2005–2006, 68.4 percent of all students and all groups of students were expected to be enrolled in at least one honors or AP course. (See Table 4.) Over the next four years, the student level target for the rate of enrollment in honors or AP courses rises to an expected enrollment rate of 75 percent in 2010. For the 2005–2006 school year, the expected rate of enrollment in at least one honors or AP course was met for all students, as well as for White and Asian American students.

The 2006 school-level target expects 50 percent of all comprehensive high schools to have met or exceeded the expected honors/AP course enrollment for all students and for all groups of students. Over the next four years, the target percent of schools meeting expectation rises by 12.5 percentage points each year so that by 2010, 100 percent of all comprehensive high schools would meet or exceed the expected rate of honors/AP course enrollment.

During 2005–2006, 23 out of 24 high schools (95.8 percent) met the target rate of enrollment in honors/AP courses by Asian American and White students. (See Table 5.) However, only 9 out of 24 high schools (37.5 percent) met the expected enrollment rate for all students; 4 out of 24 (16.7 percent) met the expectation for Hispanic students, 2 out of 24 (8.3 percent) met the

expectation for FARMS students, 1 out of 24 (4.2 percent) met the expectation for African American students; and no school met the expectation for special education or LEP students.
