

Office of the Superintendent of Schools  
MONTGOMERY COUNTY PUBLIC SCHOOLS  
Rockville, Maryland

August 1, 2006

MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools

Subject: Maryland State Department of Education Reporting of Highly Qualified Teachers

The purpose of this memorandum is to provide you with information regarding the number and percent of core academic classes being taught by teachers designated as highly qualified in the Montgomery County Public Schools (MCPS). Please note that these data are captured and reported by the Maryland State Department of Education (MSDE) for the previous year. Therefore, the data reflect staff designations as of December 1, 2005. MSDE will again capture data to report on December 1, 2006.

A class is considered as being taught by a teacher designated highly qualified if the teacher is certified and has an academic major or has passed an appropriate PRAXIS test, completed the High Objective Uniform State Standard of Evaluation (HOUSSE), or holds an advanced professional certificate in the core academic subject he/she is teaching. Core academic subjects are English, language arts/reading, foreign languages, mathematics, science, civics and government, economics, the arts, history, geography, and elementary education.

The December 1, 2005, capture of staff designations, unlike in prior years, limited the reported number of elementary art and music classes to one class per teacher per elementary school. As a result, the total number of core academic classes reported countywide dropped from 31,105 as of December 1, 2004, to 25,569 as of December 1, 2005.

Of the 25,569 core academic subject classes MSDE reports being taught by MCPS teachers as of December 1, 2005, 85.5 percent (21,855) were being taught by teachers who are designated highly qualified and 14.5 percent (3,713) were being taught by teachers who are not yet designated highly qualified. The percent of core academic subject classes being taught by highly qualified teachers has increased by 5.2 percentage points since December 1, 2004, when 80.3 percent (24,174) of 31,105 core academic subject classes were being taught by teachers who were designated as highly qualified.

The Office of Human Resources continues to review the designations of all teachers who are teaching the core academic subjects. In collaboration with the Department of Reporting and

Regulatory Accountability, the Office of Human Resources works with MSDE to support accurate reporting of data and works in collaboration with the Office of School Performance to support school administrators in assigning teachers to core academic subject classes for which they are designated as highly qualified. *No Child Left Behind* (NCLB) outlines a list of minimum requirements, both in content knowledge and teaching skills, to meet the "highly qualified" status. NCLB requires teachers to have a bachelor's degree; full state certification not on an emergency, temporary, or provisional basis; and to demonstrate content knowledge in the subjects they teach.

Countywide, 96.3 percent of classes in the core academic areas of economics were taught by highly qualified teachers, followed by classes in civics/government (90.9 percent), history (90.8 percent), elementary education (90.2 percent), the arts (89.5 percent), English (85.1 percent), foreign languages (84.8 percent), science (84.4 percent), geography (83.9 percent), mathematics (79.7 percent), and language arts/reading (77.7 percent).

Under NCLB, states decide what is necessary for certification and for determining subject-matter competency. As a result, the specific criteria that must be satisfied to achieve the highly qualified designation vary from state to state. Therefore, a teacher coming to MCPS from outside the state of Maryland who was designated highly qualified in that non-Maryland jurisdiction may or may not be designated highly qualified by Maryland standards. The MSDE continues to develop and refine the requirements for highly qualified teachers.

The attached data provide the number and percent, by school and subject, of core academic area classes taught by teachers who have been designated highly qualified and classes taught by teachers who have not been designated highly qualified as of December 1, 2005.

Please refer questions to Mr. Larry A. Bowers, chief operating officer, at 301-279-3626. I will continue to keep you informed.
