MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools

Subject: Report on Honors or Advanced Placement Course Enrollment

Enrollment in at least one Honors or Advanced Placement course increased in 2006–2007 for all students and for all groups of students compared to the previous year. As indicated in the attached report, *Honors or Advanced Placement Course Enrollment 2006–2007*, the rate of enrollment has continued to increase over the last four years to 71.8 percent of last year’s comprehensive high school students (58 percent in 2000–2001). For the first time, more than half of both African American students (53.6 percent) and Hispanic students (52.9 percent) were enrolled in at least one Honors or Advanced Placement course. Overall, more than 31,300 students were enrolled in such courses among the district’s 25 high schools, the largest enrollment ever.

The attached report also provides data in relation to established targets for student participation in at least one Honors or Advanced Placement course through 2010. A complete set of data tables for all schools is available at—
<http://www.montgomeryschoolsmd.org/departments/regulatoryaccountability/pdf/reports/HAP2007.pdf>.

As information becomes available, I will continue to keep you informed about the progress of enrollment in our most challenging courses.

2006–2007 Enrollment in at Least One Honors or Advanced Placement Course

Continued progress was made during the 2006–2007 school year in increasing the enrollment of students in at least one Honors or Advanced Placement (AP) course in high school. The Montgomery County Public Schools (MCPS) seeks to increase enrollment in and performance of all students in gifted, Honors, Advanced Placement (AP), and other advanced programs as part of ongoing efforts to provide an effective instructional program—one of five major goals identified in *Our Call to Action: Pursuit of Excellence*.

This report measures the progress all comprehensive high schools have made toward increasing the enrollment of students in at least one Honors or AP course. Additionally, this report includes performance results on recently established targets that raise expectations and standards for student achievement and reinforce a commitment to closing the gap in student performance by race and ethnicity, as well as other student groups. The targets extend through 2010 and reflect the requirements of national, state and local accountability mandates for student achievement.

MCPS has undertaken efforts designed to prepare and encourage more students to stretch themselves academically and to take the most challenging courses. Various systemwide and individual school initiatives have opened the enrollment and encouraged more diverse student participation in Honors and AP courses. Initiatives include creating a positive school climate that communicates high expectations for all students, motivating students to participate in challenging coursework, and removing barriers to the recruitment and selection of students for enrollment in Honors and AP courses.

Honors or AP Course Enrollment

Compared to the prior year, 2006–2007 enrollment in at least one Honors or AP course increased for all students and for all groups of students. (See Table 1.) The greatest increase was seen among Limited English Proficient (LEP) and Hispanic students, and students receiving Free and Reduced-price Meals System (FARMS) services whose enrollment in at least one Honors or AP course increased by more than 3 percentage points. The percentage of African American students enrolled in at least one Honors or AP course increased by nearly 3 percentage points, whereas a slightly more than 2 percentage point increase was seen among White students.

During 2006–2007, the percentage of all students and all groups of students enrolled in at least one Honors or AP course was the highest since the baseline year of 2000–2001. (See Table 2.) Over the six year period, the enrollment of Hispanic and African American students and students receiving FARMS services increased by more than 18 percentage points; the enrollment of White, LEP and Asian American students rose by more than 12 percentage points; and the enrollment of special education students in at least one Honors or AP course increased by more than 7 percentage points.

Advanced Level Course Enrollment

Advanced Level (i.e., Advanced Placement, International Baccalaureate, Magnet, and other advanced level courses) course enrollment has been steadily increasing since the baseline year of 2000–2001, with 45.7 percent of all students being enrolled in at least one Advanced Level course during 2006–2007. (See Table 3.) Over the five year period, Advanced Level course enrollment for White and Asian American students increased by more than 18 percentage points; enrollment for African American, Hispanic, and FARMS students increased by approximately 10 percentage points; and enrollment for LEP and special education students increased by more than 7 and 3 percentage points, respectively.

Strategic Plan Improvement Targets

MCPS established targets for Honors or AP course enrollment that reflect rigorous expectations for both the percentage of students enrolled in at least one Honors or AP course and for the percentage of schools meeting the expected rate of enrollment. The targets for Honors or AP course enrollment are dual fold: the student performance target designates the percentage of each student group that successfully meets or exceeds the expected percentage of enrollment in at least one Honors or AP course, while the district level target designates the number of schools having all students and all groups of students at or above the expected enrollment rate.

During 2006–2007, 70.1 percent of all students and all groups of students were expected to be enrolled in at least one Honors or AP course. (See Table 4.) Over the next three years, the student level target for the rate of enrollment in Honors or AP courses rises to an expected enrollment rate of 75% in 2010. For the 2006–2007 school year, the expected rate of enrollment in at least one Honors or AP course was met for all students, as well as for White and Asian American students.

The 2007 district level target expects 15 out of 25 MCPS comprehensive high schools to have met or exceeded the expected Honors/AP course enrollment for all students and for all groups of students. Over the next four years, the target number of schools meeting expectation increases by 3 schools each year such that by 2010, all comprehensive high schools are expected to meet or exceed the expected rate of Honors/AP course enrollment.

During 2006–2007, the target rate of enrollment in Honors/AP courses was met by all comprehensive high schools for White students and was met by 24 high schools for Asian American students. (See Table 5) However, only 9 high schools met the expected enrollment rate for all students, 5 met expectation for Hispanic students, and 1 met expectation for FARMS students, African American students, and LEP students.
