MONTGOMERY COUNTY PUBLIC SCHOOLS  
Rockville, Maryland

December 3, 2015

### MEMORANDUM

To: Elementary School Principals

From: Maria V. Navarro, Chief Academic Officer

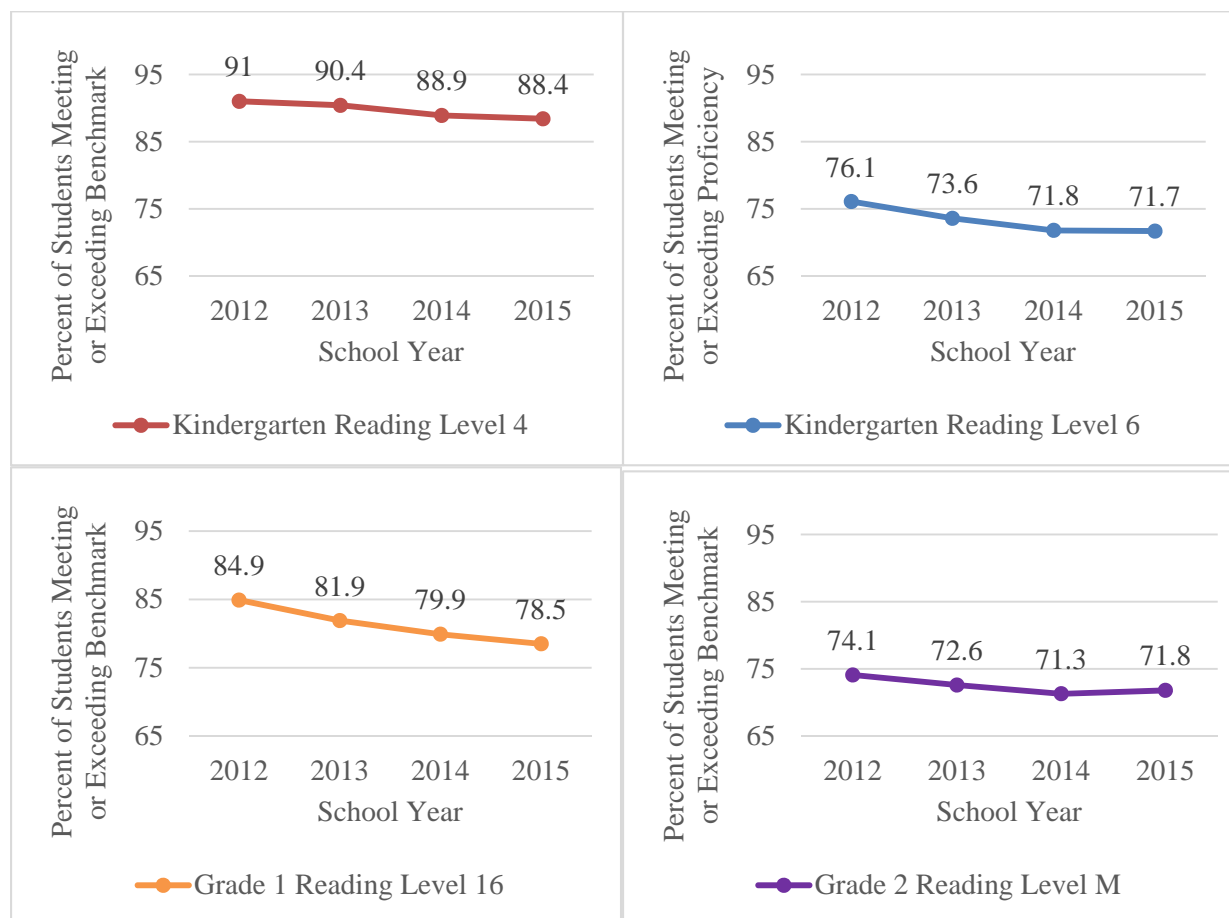

Subject: INFORMATION: Student Performance on the 2015 Assessment Program in Primary Reading (Kindergarten to Grade 2)

An emphasis on early reading has long been an essential part of the Montgomery County Public Schools' (MCPS) strategy for equipping our students with the skills necessary to be successful in school. Over the years, we have closely monitored the data, invested in professional development, and reduced student-teacher ratios to provide more time for reading instruction. The reading progress of the primary grades has been monitored during the last few years through the Strategic Planning Framework Grade 3 milestone—*Reading at the proficient and advanced levels*.

To assess reading skills in the primary grades, MCPS administers the Assessment Program in Primary Reading (AP-PR) three times per year to provide continuous feedback on students' text-reading development, including accuracy, fluency, and oral and written comprehension. AP-PR is a combination of a locally developed assessment and a nationally norm-referenced assessment that provides formative information to help teachers and administrators focus on instruction and monitor students' text-reading progress. Students' reading levels are reported on an interval scale reflecting progress toward attainment of the grade-level benchmark and proficiency.

During the past three years, MCPS AP-PR results indicated a decline in reading performance for elementary students. A cross-functional Elementary Reading Data Monitoring Team was established two years ago to explore practices at schools to influence and change the trajectory of the downward trend observed in the performance of AP-PR. The work of the cross-functional team was used to inform the work of a districtwide Elementary Literacy Instructional Core Team (ICT), established in the 2014–2015 school year. The ICT intensified the focus on data driven instruction and frequent monitoring of reading data in order to halt the downward trend in primary students'

reading performance. More specifically, the monthly Monitoring Instructional Reading Level (MIRL) tool, developed and piloted in spring 2015 at 16 schools, allowed teachers to collect formative assessment data during guided reading instruction. At the same time, several of the principal curriculum update meetings as well as joint sessions for reading specialists and staff development teachers have focused on professional learning related to reading instruction. The outcome of these efforts has revealed a decrease in the downward trend observed in prior years. In spring 2015, a smaller one-year decrease in the percentage of students meeting or exceeding the grade-level reading benchmark was observed in Kindergarten and Grade 1, coupled with a small increase in Grade 2. Kindergarten students also achieved reading proficiency at Text Level 6 with steady rates between 2014 and 2015, leveling off from the loss observed in previous years (see Table A1 in the Appendix). Results of 2015 AP-PR are presented below with comparison results from prior years.

**Figure 1. Trend from 2012 to 2015 in the percentage of primary students meeting or exceeding grade-level reading benchmarks and proficiency.**

*Notes:* Students in special/alternative schools are not included. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. In addition, students were exempt from testing if they were enrolled in French or Spanish language immersion programs.

### **Kindergarten Performance**

The majority of Kindergarten students (88.4 percent) met or exceeded the grade-level reading benchmark at Text Level 4 in 2015 with only a 0.5 percentage point decrease from 2014 (88.9 percent), demonstrating stability compared to the year-to-year decreases occurring in prior years (Figure 1 and Table 1). Among all racial/ethnic groups, Black or African American Kindergarten students made the greatest gain of 1.4 percentage points from 2014 to 2015. A small increase in the performance of students identified as Two or More Races also was observed (0.5 percentage point increase), while the percentage of students attaining the reading benchmark slightly decreased for other racial/ethnic groups (one percentage point decrease or less). Between 2014 and 2015, the performance of Kindergarten students receiving special services remained stable with a decrease of one percentage point or less, contrasting to the greater one-year decreases in previous years.

In addition, 71.7 percent of Kindergarten students achieved reading proficiency at Text Level 6 in 2015, showing steadiness compared to the percentage of 71.8 in 2014 (Figure 1 and Table 1). Among all racial/ethnic groups, Black or African American Kindergarten students once again made the greatest gain of 4.2 percentage points from 2014 to 2015. An increase in the performance of students identified as Two or More Races also was observed (1.6 percentage point increase), while the percentage of students attaining reading proficiency remained steady for Asian students (0.2 percentage point increase) and slightly decreased for Hispanic/Latino and White students (one percentage point decrease or less). Contrasting to the downward trend in previous years, the performance of Kindergarten students receiving special services remained stable between 2014 and 2015 with a change of one percentage point or less; students who were enrolled in the Free and Reduced-price Meals System (FARMS) program gained 0.4 percentage points in achieving reading proficiency at Text Level 6.

### **Grade 1 Performance**

In 2015, 78.5 percent of Grade 1 students met or exceeded the grade-level reading benchmark of Text Level 16, a decrease of 1.4 percentage points from 2014 (79.9 percent), indicating a continuous but smaller decrease compared to the one-year decreases observed in previous years (Figure 1 and Table 1). The percentage of Grade 1 Asian and White students who met or exceeded the reading benchmark remained relatively constant from 2014 to 2015 (0.2 percentage point increase and 0.5 percentage point decrease, respectively), with the largest decrease observed for students identified as Two or More Races (4.6 percentage point decrease), followed by a decrease for Black or African American and Hispanic/Latino students (2.8 and 1.7 percentage point decreases, respectively). Between 2014 and 2015, the performance of Grade 1 students receiving special services was relatively stable (approximately one percentage point change or less), compared to the more substantial one-year decreases in previous years.

## Grade 2 Performance

In 2015, 71.8 percent of Grade 2 students met or exceeded the grade-level reading benchmark of Text Level M, a 0.5 percentage point increase from 2014 (71.3 percent), which demonstrated a positive turnaround after the downward trend in prior years (Figure 1 and Table 1). Among Grade 2 students of all racial/ethnic groups, those identified as Two or More Races had the greatest increase in performance (4.7 percentage point increase) between 2014 and 2015, followed by an increase for Black or African American and White students (2.2 and 1.2 percentage point increases, respectively), with the percentage remaining steady for Asian students; however, Hispanic/Latino students experienced a 0.7 percentage point decrease in meeting or exceeding the reading benchmark. Compared to the one-year decreases in prior years, Grade 2 special education and Limited English Proficient (LEP) students demonstrated a relatively large decrease in performance between 2014 and 2015 (1.9 and 1.4 percentage point decreases, respectively), while performance on the AP-PR remained steady for Grade 2 FARMS recipients.

Table 1

	Kindergarten Level 4		Kindergarten Level 6		Grade 1 Level 16		Grade 2 Level M

## Elementary Literacy Instructional Core Team

ICT, comprising associate superintendents and other staff members in the offices of Curriculum and Instructional Programs, School Support and Improvement, the Chief Technology Officer, Shared Accountability, and Special Education and Student Services meets monthly to continue strategically focusing on developing and implementing literacy strategies. As part of the team's work, the MIREL pilot was expanded to all elementary schools. A variety of data including AP-PR are reviewed and analyzed at ICT meetings. This analysis informs the work of the ICTs and provides insight about avenues for further exploration and actions.

The attachment (Tables A1–A9) presents 2015 AP-PR results by student group and elementary school. If you have any questions, please contact Dr. Kecia Addison, supervisor, Applied Research Unit, Office of Shared Accountability, at 301-279-3194 or via e-mail.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. Students also were exempt from testing if they were enrolled in French/Spanish language immersion programs. Students in special/alternative schools are not included. AS = Asian, BL = Black or African American, HI = Hispanic/Latino, WH = White, MU = Two or More Races, Spec. Ed. = Special Education; ESOL = English for Speakers of Other Languages; FARMS = Free and Reduced-price Meals System. Data for ESOL students do not match the already published results for ESOL students in the 2012 AP-PR memorandum due to the rule change for including ESOL students in order to make the results for the ESOL group in 2012 and later years more comparable to prior years.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages Level 1 services. Students also were exempt from testing if they were enrolled in French or Spanish language immersion programs. Students in special/alternative schools are not included. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% is noted as ≥95.0 or ≤5.0, respectively, and the number of students meeting or exceeding the benchmark is not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 test takers. For groups of between 10 and 20 test takers, only the percentage rate is reported.

\*Schools with immersion programs.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. Students also were exempt from testing if they were enrolled in French/Spanish language immersion programs. Students in special/alternative schools are not included. AS = Asian, BL = Black or African American, HI = Hispanic/Latino, WH = White, MU = Two or More Races, Spec. Ed. = Special Education; ESOL = English for Speakers of Other Languages; FARMS = Free and Reduced-price Meals System. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% is noted as ≥95.0 or ≤5.0, respectively, and the number of students meeting or exceeding the benchmark is not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 test takers. For groups of between 10 and 20 test takers, only the percentage rate is reported.

\*School with immersion programs.

\*\*New school.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. Students also were exempt from testing if they were enrolled in French/Spanish language immersion programs. Students in special/alternative schools are not included. AS = Asian, BL = Black or African American, HI = Hispanic/Latino, WH = White, MU = Two or More Races, Spec. Ed. = Special Education; ESOL = English for Speakers of Other Languages; FARMS = Free and Reduced-price Meals System. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% is noted as ≥95.0 or ≤5.0, respectively, and the number of students meeting or exceeding the benchmark is not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 test takers. For groups of between 10 and 20 test takers, only the percentage rate is reported.

\*School with immersion programs.

\*\*New school.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. Students also were exempt from testing if they were enrolled in French/Spanish language immersion programs. Students in special/alternative schools are not included. AS = Asian, BL = Black or African American, HI = Hispanic/Latino, WH = White, MU = Two or More Races, Spec. Ed. = Special Education; ESOL = English for Speakers of Other Languages; FARMS = Free and Reduced-price Meals System. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% is noted as ≥95.0 or ≤5.0, respectively, and the number of students meeting or exceeding the benchmark is not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 test takers. For groups of between 10 and 20 test takers, only the percentage rate is reported.

\*School with immersion programs.

\*\*New school.

*Note.* Results are not available for schools without students in kindergarten to Grade 2. American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Students were exempt from testing if they enrolled after January 1 of that school year and received English for Speakers of Other Languages (ESOL) Level 1 services. Students also were exempt from testing if they were enrolled in French/Spanish language immersion programs. Students in special/alternative schools are not included. AS = Asian, BL = Black or African American, HI = Hispanic/Latino, WH = White, MU = Two or More Races, Spec. Ed. = Special Education; ESOL = English for Speakers of Other Languages; FARMS = Free and Reduced-price Meals System. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% is noted as ≥95.0 or ≤5.0, respectively, and the number of students meeting or exceeding the benchmark is not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 test takers. For groups of between 10 and 20 test takers, only the percentage rate is reported.

\*School with immersion programs.

\*\*New school.
