HOW TO MAKE A SMALL SUN PRINT

Follow these directions closely:

- 1) Create paper cut-out designs that will fit on a 4" x 6 " card.
- 2) Arrange your designs on your Sun Print paper. (*Do not tape or glue!*)
- 3) Expose to the sunlight until the paper turns a pale blue (*2 minutes*).
- 4) Remove the cut-outs.
- 5) Write your name in pencil on the back of the paper.
- 6) Soak the Sun Print paper in a pan of water (*out of the sun*) for one minute.
- 7) Remove the Sun Print paper and lay flat to dry.
- 8) The image should sharpen as the paper dries.
