Inferencing

You will use your inferencing skills to determine WHERE this scene takes place.

Clue #1

The script says there are **toys on the floor**.

With **ONLY** this information, make your first hypothesis about **where** the scene takes place. Circle one of the following:

A college classroom A child's room A doctor's waiting room
--

Clue #2

There are **two children playing in the room**.

Is this new clue support for your hypothesis? _____

If no, choose a new hypothesis.

Clue # 3

There is **a receptionist calling a child's name**.

Is this support for your hypothesis? _____

If no, choose a new hypothesis.

The three clues all support your INFERENCE. Write it below.

My inference: _____

What might be written on the script as a 4th support for your inference?
