Creating a Three-Act Newsies Film

PAGE TWO

____3) Create your backgrounds and characters.

____4) Ask for a group demo for iStopMotion (or other stop-edit software).

IN PRODUCTION

____5) Film each scene using iStopMotion (or other stop-edit software)..

Each scene should be approximately 10 seconds in length.

(30 frames per second = _____ total frames for each scene.)

POST-PRODUCTION

____6) Transfer your footage into your editing software.

____7) Add a title and a subtitle for each of the three sections.

____8) Add visual effects.

____9) Add credits.

____10) Choose and add copyright-free music.

Congratulate yourselves on completing a silent animated film! 😊
