Lights, Camera, Media Literacy! Big Dream Small Screen

How did Philo T. Farnsworth's farm work in a potato field inspire his idea for electronic television?

If after all of the patent battles, Philo was the first non-RCA inventor to be paid royalties, why did he receive little money and little recognition from his invention of electronic television?
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
paid royalties, why did he receive little money and little recognition from his
