No race specified	165 (10.0%)	-	-	-	-	-	-	-	-

The above data represents the demographic information of the **1649** students from **Montgomery Blair High School** who participated in the Antiracist Stakeholder Survey and provided feedback. A total of **165** respondents did not identify their race when filling the survey.

Students were able to select one or more races that described their race/ethnicity. **Single Race** indicates students who chose only one race/ethnicity (i.e., a responded who chose Asian **or** African American), **Multiracial** indicates students who chose more than one race/ethnicity (i.e., a respondent who chose Asian **and** African American). **All Respondents** indicates the total count of everyone who chose a certain racial category, regardless of whether they were **Single Race** or **Multiracial**. These three manners of disaggregating the data highlight the diversity of the population of MCPS at each school.
